jundarwinragodos.me · [linkedin.com/in/jundarwinragodos](https://www.linkedin.com/in/jundarwinragodos)

WordPress developer with 8+ years of agency experience turning PSD, Adobe XD and Figma designs into fast, responsive websites. I build custom themes with Advanced Custom Fields and work daily in Elementor, Beaver Builder, Divi and WPBakery. My work also covers plugin fixes, performance tuning and long-term site maintenance.

EXPERIENCE

WordPress Developer

Jan 2016 – Mar 2024

Excite Media · Digital agency

- Built complete client websites on WordPress, from first template through to launch.
- Converted PSD designs into custom WordPress themes, and Adobe XD files into Elementor-built sites.
- Improved page speed by auditing installed plugins, setting up caching and optimising images, scripts and stylesheets.
- Delivered mobile-responsive builds using responsive design principles and CSS frameworks.
- Debugged, fixed and extended third-party plugins.
- Maintained a portfolio of live client sites, handling updates and fixes.

WordPress Developer

Jun 2013 – Mar 2015

WordPress Developer PH (WPDEVPH)

- Developed functional client websites on WordPress.
- Converted PSD designs into WordPress themes and templates.
- Fixed and customised plugins to meet client requirements.

PHP Programmer

Mar 2011 – Apr 2013

Website Designer Australia · Freelance

- Built business websites for clients with the CodeIgniter PHP framework.
- Coded PSD designs into semantic HTML and CSS.
- Normalised databases and refactored existing code to improve site performance.
- Resolved front-end and back-end errors, and worked directly with clients over Skype.

Printer Software Tester

Apr 2010 – Apr 2011

Lexmark Research & Development Corp.

- Installed and configured Linux distributions (Ubuntu, Fedora, Debian, Red Hat, openSUSE) for testing.
- Tested printer software on Linux and macOS, and documented results in Excel reports.

SKILLS

Development

PHP HTML CSS
JavaScript jQuery AJAX
MySQL CodeIgniter
